

U1.8		check Available Bookings	Priority	High
			Effort	7
As an	customer			
I want	To be able to check all available bookings and the employee available			
So that	I can pick the best time for my personal schedule			
Acceptance Criteria	AC1: Given that customer has logged into the system When the admin clicks “Booking” button and go to the booking time slot tab Then the system displays all the availability of a booking with an employee name
