2. Chatting records.

AS

Arone Susau 28/08 14:46
Hi team, can I get a quick review on this PR for including automated testing for backend please
<https://github.com/RMIT-SEPT/majorproject-1-fri-10-30-3/pull/12>

29 August 2020

AS

Arone Susau 29/08 23:50
Man I believe I've solved your foreign key issue if you have not, we can discuss it tomorrow if you're available

```
Run: Run Selected | Auto complete | Clear SQL statement
SELECT * FROM EMPLOYEE_SCHEDULE

SELECT * FROM EMPLOYEE_SCHEDULE
SCHEDULE_ID AVAILABILITY CAPACITY CREATED_AT LENGTH PRICE STARTING_HOUR UPDATED_AT EMPLOYEE_ID SKILLS_ID
1 2020-08-25 10:00:00 10 2020-08-25 23:49:14 202 0 0 null 7 7
(1 row, 9 ms)

[Err]
```

30 August 2020

30/08 10:13
That's great, i am free this afternoon 😊

10 September 2020

AS

Arone Susau 10/09 13:25
Hey **Man**, could we add these fields onto the skills schema please,

title: String
description: String
imageSrc: String
length: Int
cost: Int

10/09 13:36
Sure, I am in a tute and there is a lecture after it. I'll do this after the lecture ends.

AS

Arone Susau 10/09 13:36
Thank you 😊

Tein Hwlar Phyu 10/09 15:26 🍌 1
Are we having a meeting today

Todd Byrnes 10/09 15:27
I would say so

Tein Hwlar Phyu 10/09 15:27
Yeh we should

11 September 2020

AS

Arone Susau 11/09 12:05

👍 1

Hey team, I'm updating the pickup board to bring in the new cards for the sprint, don't forget to check off which ever tasks you've already completed 😊

Can we add a new column for testing / qa?

11/09 12:06
sure, why not

14 September 2020

AS

Arone Susau Monday 16:20

@

Hi **Man**, nice work with your PR! But could you add the @CrossOrigin annotation to each of the controllers please

Monday 16:21
sure, do I need to add it above the controller classes
or above every method in controller

AS

Arone Susau Monday 16:22

```
@RestController
@RequestMapping("/api/enrollment")
@CrossOrigin(origins = "**")
public class EnrollmentController {
```

like that, just above the controller class name

add that and commit it and I'll approve it straight away 😊

Monday 16:22
ok, I'll copy exactly what I wrote here 😊

AS

Arone Susau Monday 16:23

just do it for each of the controller classes

and before I forget, are you able to add the @JsonIgnore annotation above the field
`private Set<Employee_Schedule> schedules;` for employees and the same for skills and customers
otherwise we'll end up with that annoying recursive call

Monday 16:26
ok, I'll write this on the two classes above

AS

Arone Susau Monday 16:27

Sorry to clarify, any of the set or array fields on Customer, Skill and Employee need the @JsonIgnore annotation, thank you 😊

Monday 16:28
yes, I get it, inside Customer, it was called "Enrollment"

AS

Arone Susau Monday 16:29

yeah that's the one, and "schedules" on Skill and Employee too please

Monday 16:29
sure

15 September 2020

Arone Susau Tuesday 14:37

Hi team, when someone has a chance can I get a review on this pr to move booking process into dev please?

<https://github.com/RMIT-SEPT/majorproject-1-fri-10-30-3/pull/15>

Todd Byrnes Tuesday 14:39 👍 1
good to go

Arone Susau Tuesday 15:48
Thank you Todd!

Arone Susau Tuesday 16:29

Really simple and straight forward employee profile mocks are up in the files, check them out and leave feedback if needed. I'll be working on the admin dashboard in the meantime and starting on the code asap 😊

Arone Susau Tuesday 20:12

Hey **Man**, what was the url for deleting again? @

is it <http://localhost:8080/api/employee/delete/1> as an example

Tuesday 20:12
Yes

Arone Susau Wednesday 19:25
haha good luck mate!

17 September 2020

Arone Susau Thursday 12:02

Does anyone know where the circleci tutorial is, I can't find it in the convos on teams

Thursday 12:02 👍 1
I am reading the doc on their website

Arone Susau Thursday 12:04

I could have sworn there was a tutorial on this 😞

Thursday 12:05

I am adding new APIs you mentioned yesterday but my lecturer and tute start on 12:30 until 4:30, not sure whether I could finish it before

Lecture *

Arone Susau Thursday 12:05

take your time with them, they're not essential to have by friday, but it would be a nice-to-have

Thursday 12:06
