

Project Sprint Planning Notes

Team: Friday; 10:30; Group 3

Sprint: 0

Date: 31/07/2020

Attended: Man Hou, Todd Byrnes, Arone Sasau, Dylan Dimkovski, Tein Hwlar Phyu

Scrum Master: Tein Hwlar Phyu

Product Owner: Arone Sasau

Development team: Man Hou, Todd Byrnes, Arone Sasau, Dylan Dimkovski, Tein Hwlar Phyu

1. Goal

The ultimate goal of the sprint is to iron out details of how the project will progress through future sprints and organising documentation for the submission of Milestone One.

2. Duration of the Sprint

This sprint is aiming to be completed within two (2) weeks.

3. What is the team's vision for the sprint?

Within the sprint zero, our team will attempt to ensure the project backlog is complete with tasks that will be completed in upcoming sprints. Our team is also planning to utilise ClickUp to manage these tasks and ensure that each member is delegated with appropriate tasks for completion.

It also would be relatively ideal if a few back-end API services are functional to make development in early stages of the following sprint slightly easier (such as customer, employee and admin APIs)

Our team are also aiming to supply the relevant documents that are required for the submission for the first milestone which is scheduled to arrive once this sprint has concluded.

4. Estimation of Story Points

Story points for the given tasks are given on our Click-Up Board located here: <https://app.clickup.com/6916834/v/b/t/6916834>
